AUTORE *Venezia* ring in white gold, with Tahitian South Sea pearl, and white and black diamonds.

Gold Baroque pearls & Indian antique necklace from a private collection.

AUTORE

Venezia:

The Journey Continues

AUTORE's elegant and sophisticated Venezia jewellery collection blends ornate classic details with subtle pastel colours evoking the soft romance and beauty of the canals of Venice. The City of Water, inspiration for artists, architects, painters and jewellers for centuries, brings its influences to bear on the most beautiful of South Sea pearls in the most seductive of ways.

The *Venezia* collection features precious gemstones blended with exclusive AUTORE South Sea pearls in a luxurious palette of white, yellow and black with hues of pink, blue and green. Representing the blue tones of the Venetian canals and the city's elaborate architecture, different motives blend together with the shimmering of the rose cut diamonds, rubies, orange sapphires and other precious gems.

The patina effects on the Venetian architecture is replicated in the use of ornately cut rustic diamonds in a range of hues from yellow to orange, to brown and grey, as well as briolette beads in black diamond with delicate details of micro set stones. The collection is enhanced with vibrant tones of green Tsavorite, turquoise Paraiba tourmaline, shaded blue sapphires, and the unique cut of aquamarines, customised especially for AUTORE.

CEO Rosario Autore is excited by the stunning *Venezia* collection. "*Venezia* is a sophisticated and innovative jewellery range that appeals to a broad market of discerning clientele. AUTORE continues to redefine the image of South Sea pearl jewellery by marrying truly innovative design and exquisite craftsmanship with extraordinary South Sea pearls", said Autore.

Like the AUTORE South Sea pearl, Venice was born of water and protected by it. The waters of canals and lagoon accent a city that has inspired romance for hundreds of years; the tones and hues are reflected in spectacular pieces that will transport you back to Venezia.

Venezia is a collection inspired by the city of canals — a city on the water to which it owes its existence and wealth. A city of elaborate ceremonies, the gondola parades of courtesans, street theatre, opera, ornate glasswork, luxurious brocades, and of course, the Carnival. AUTORE has drawn on the details of Venetian expression — from the fine ironwork of palace portals and delicate Baroque chapels to the stucco embellishment of Café Florian and Piazza San Marco — to create this extraordinary South Sea pearl jewellery collection.

AUTORE will showcase the extended *Venezia* collection, alongside its *Fire & Ice*, *Oceania*, *Couture*, *Boutique* and *Essential* ranges at Baselworld in March.

AUTORE Venezia "Fer Forgé"
earrings in white gold, with
Tahitian South Sea pearls,
brown diamonds, rustic grey
diamonds, light yellow diamonds
and black and white diamonds.

Inspired by the balconies and gates of the Venetian palaces, this ornate earring design reflects the antique feel of wrought iron, with the use of graduated diamonds from white to champagne to black and rustic complemented by the Tahitian South Sea pearls. The top part of the earrings is taken from the Middle Eastern fleur-de-lys where the outline is a stylisation of the portico arches.

AUTORE *Venezia* earrings
in white and rose gold,
with South Sea keshi
pearls, and white and
brown diamonds.
